

## Senior Consultant - Business Intelligence

Ardentia Ltd is a leading provider of Health Informatics to the NHS and Microsoft Gold Partner. Based at our head office in Stafford, our highly experienced teams of specialists have developed a range of world class technologies centred round data warehousing, data entry, and business intelligence.

There is a requirement for a senior consultant to work in the solutions delivery team. Successful candidates will lead activity in the design, build and support of data reporting solutions using web-based applications. We are looking for people with excellent customer facing and presentations skills, NHS informatics knowledge (experience of mental health will be of particular interest) and strong Microsoft Analysis Services OLAP development experience.

This role could suit an experienced NHS Information Manager or Senior Information Analyst with a technical bias and commercial acumen, who has extensive experience in managing and supporting, reporting and information management solutions within the NHS. Alternatively a similar role within a commercial third party supplier to the Health Market would suit.

This is an office based role with regular customer facing exposure UK wide. You must have a valid driving license and your own car for this role.

### Primary Requirements

- At least five years NHS experience of information solutions delivery.
- Relational database structures and SQL, with SQL Server 2005
- Strong SSAS and SSIS (2005)
- Proven ability to deliver high quality IT solutions within agreed timescales
- Strong written and verbal communications skills
- Proven ability to pick up new concepts and technologies
- Business and requirements analysis
- Excellent customer facing and presentation skills

### Secondary Requirements

- Mental Health informatics
- Experience of delivering training workshops
- Data warehousing

Excellent Salary with car allowance plus comprehensive benefits package - details upon request.
